

OPERATE SMARTER. HOST BETTER.

Co-Hosting Starter Kit

10-DELIVERABLE EDITION · 100+ PAGES · COPY-PASTE READY

First-client guide · Call script · Onboarding checklist · Cleaner SOP · Owner report

Outreach scripts · Proposal · Guest templates · Maintenance SOP · Pricing calculator

hostflow.me

Snow Studio · operating as Hostflow

CONTENTS

The 10 deliverables

- 1. FIRST-CLIENT GUIDE** How to land the first paying client — positioning, 30-day plan, day-by-day. [\[in Modules 1-2\]](#)
- 2. CALL SCRIPT** Discovery call script + 4-question pre-approval + objection handlers. [\[in Module 5\]](#)
- 3. ONBOARDING CHECKLIST** Welcome packet + 30/60/90-day onboarding milestones. [\[in Module 4 + App. A\]](#)
- 4. CLEANER SOP** 7-zone turnover checklist + photo verification + restocking. [\[in App. A\]](#)
- 5. OWNER REPORT** Monthly statement + quarterly review + annual plan. [\[in Module 8\]](#)
- 6. OUTREACH SCRIPTS** 5 email scripts + DM templates + SMS + voicemail. [\[in Module 9\]](#)
- 7. PROPOSAL** 2-page proposal template + engagement model. [\[in Module 5 + App. C\]](#)
- 8. GUEST TEMPLATES** 12 message templates covering every guest touchpoint. [\[in Module 6 + App. B\]](#)
- 9. MAINTENANCE SOP** Maintenance triage playbook + vendor network + emergency protocols. [\[in App. D\]](#)
- 10. PRICING CALCULATOR** Pricing math tool + comp-set methodology + worked examples. [\[in Modules 3 + 7 + App. E\]](#)

Modules 1-10 cover the operating knowledge. Appendices A-E hold the standalone artifacts (checklists, templates, calculators). Every artifact has worked examples — copy, replace [brackets], send.

WELCOME

The full kit, in one PDF

Snow Studio · 2026-09-19

"Your property, fully booked. We take over your property end-to-end — listing, pricing, guests, cleaning."

— hostflow.me (the brand creator for this Kit)

That sentence is the brand voice. Every artifact in this Kit extends it into a system you can run.

This is the comprehensive edition — 10 deliverables, 100+ pages, every page copy-paste ready. The structure mirrors the 10-item starter-kit checklist in the field:

- **First-client guide** — how to land your first paying client (Modules 1-2).
- **Call script** — the discovery call that converts (Module 5).
- **Onboarding checklist** — welcome packet + 30/60/90-day milestones (Module 4 + Appendix A).
- **Cleaner SOP** — turnover checklist + photo verification (Appendix A).
- **Owner report** — monthly statement + quarterly review (Module 8).
- **Outreach scripts** — 5 emails + DM templates + SMS + voicemail (Module 9).
- **Proposal** — 2-page proposal + engagement model (Module 5 + Appendix C).
- **Guest templates** — 12 messages covering every guest touchpoint (Module 6 + Appendix B).
- **Maintenance SOP** — triage playbook + vendor network (Appendix D).
- **Pricing calculator** — pricing math + comp-set methodology (Modules 3 + 7 + Appendix E).

Read it front-to-back once. Then use it as a reference. Every artifact is self-contained — print the standalone ones, file the modules by topic.

— Snow

DELIVERABLE: FIRST-CLIENT GUIDE — Modules 1-2. How to find, pitch, and close your first paying client. Read these before anything else.

CREATOR REFERENCE: hostflow.me (live brand), cohostingacquisition.com (competitor creator), Snow Studio AgenticOS (internal master plan)

MODULE 01

Cohosting 101: What it is, what it isn't

The foundation. If you don't internalize this, every email you send will be mis-positioned.

1.1 The job

A cohost is a person or company that takes over the day-to-day operations of someone else's short-term rental property, in exchange for a fee. The owner keeps the property. You run it. Four jobs, in priority order:

- **Listing management** — keep the Airbnb/VRBO/Booking.com listing accurate. Photos current. Title and description optimized.
- **Guest communications** — reply to inquiries within 24 hours. Send check-in instructions. Handle in-stay questions. Manage checkout issues.
- **Pricing** — adjust nightly rates based on demand, season, day of week, local events.
- **Cleaning coordination** — schedule turnovers between guests. Manage the cleaning crew. Do quality checks.
- **Maintenance triage** — small repairs, vendor coordination, restocking supplies.
- **Owner reporting** — monthly statements, quarterly reviews, annual planning.

What a cohost does NOT do (the boundaries matter):

- Doesn't own the property.
- Doesn't sign the mortgage or insurance.
- Doesn't pay property taxes.
- Doesn't typically clean themselves (they hire cleaners).
- Doesn't typically handle major capital expenditures.

1.2 The 3 fee models

The 3 fee models — visual comparison

1.3 Why owners hire cohosts — verbatim from the research

“Most people want the freedom Airbnb promises, but buying property is expensive, risky, and out of reach for many. That’s why we focus on cohosting — the fastest and lowest-risk path into the Airbnb market.”

— cohostingacquisition.com

That quote is your positioning. Your owner ICP is the person who wants the upside of STR without buying property. Frame every pitch around that.

1.4 21-term glossary

Every term used in this Kit. Bookmark this page.

STR — Short-Term Rental. Property rented nightly or weekly on Airbnb, VRBO, Booking.com.

LTR — Long-Term Rental. 30+ days, typically unfurnished, standard lease.

Mid-term / MTR — 30+ days, often furnished, travel nurses + digital nomads. Furnished Finder.

ADR — Average Daily Rate. Total revenue ÷ nights booked. The nightly average.

RevPAR — Revenue Per Available Rental. ADR × occupancy. The single best revenue metric.

Occupancy — % of nights booked. 70% occupancy = 21 nights booked in 30 days.

Base price — Nightly rate on a regular weeknight outside peak season. Set by comp set.

Dynamic pricing — Adjusting nightly rate in real-time based on demand, season, day, events.

Comp set — 3-5 comparable properties within 5 miles used to benchmark pricing.

Clean turn — Cleaning + inspection between two guests. 3-5 hour window.

Cohost fee — Your fee — usually % of booking subtotal or flat monthly amount.

Channel manager — Software syncing calendar across Airbnb/VRBO/Booking.com. Prevents double-booking.

PMS — Property Management Software. Calendar + messaging + finances.

Hospitable — Channel manager + messaging automation. \$30/mo. Best UX for new cohosts.

PriceLabs — Pricing software. \$25/mo. Auto-adjusts nightly rates based on comps.

Airbnb service fee — Airbnb's cut — 3% from host, 14% from guest. Host-fee plan is cheaper at scale.

Furnished Finder — Marketplace for furnished mid-term rentals. Travel-nurse market.

Pre-approval — Short questionnaire sent before accepting a booking. Filters party risk.

3-2-1 backup — Messaging rule: 3 touchpoints before stay, 2 during, 1 after.

Audit — 15-point listing review you deliver to prospects. The document that converts them.

Owner statement — Monthly financial report sent to the property owner showing net payout.

MODULE 02

The 30-Day Plan

Day-by-day tasks to land your first paying client.

"From first call to fully managed. A simple four-step process."

— hostflow.me

That's the client experience. The 30-day plan below is what YOU do to land the clients that go through that process.

2.1 The roadmap

2.2 Day 1 — Positioning brief

Write a one-page brief with these 5 blocks:

- **Niche** — urban / cabin / beach / furnished / mid-term / luxury. Pick one.
- **Geography** — your city + neighborhoods.
- **Owner ICP** — out-of-state / first-time / scaling / overwhelmed. Pick one.
- **Fee structure** — Gross %, flat, hybrid. One number, not a range.
- **Differentiation** — one sentence on why an owner should pick you over the next cohost in town.

Worked example (Asheville, NC):

Niche: cabins · **Geography:** 30-mile radius · **Owner ICP:** out-of-state with 1-2 properties · **Fee:** 25% of booking subtotal + \$250 minimum · **Differentiation:** 12+ years in the Asheville market, full-service operations, 24-hour SLA on every guest message.

2.3 Day 2 — Draft your contract

Use the sample in Module 4. Copy it. Replace [brackets]. Don't reinvent the clauses.

2.4 Day 3 — Build your prospect list (30 names)

- Open Airbnb in your market. Filter by bedrooms / amenities that match your niche.
- Sort by lowest rating. Stale listings are your warmest prospects.
- Capture: address, current rating, review count, last review date.
- Find owner contact: County property records, LinkedIn, host-profile cross-reference in Google.

2.5 Day 4-7 — Write 5 outreach emails

Don't send Day 4. Write Day 4, refine Day 5, send Day 6. The first 5 emails are practice, not outreach.

Use the cold-pitch template (Module 9.2). Replace [brackets]. Keep under 120 words.

2.6 Day 8-14 — Send first 30 pitches

- Send 5 cold pitches/day, weekdays only.
- Track in a spreadsheet: address, date sent, follow-up date, response.
- If no reply in 7 days, send one follow-up (Module 9.3).
- If still no reply, drop them. Move on.

Expected reply rate: 30-40% for cold pitch with a specific observation. Lower if generic.

2.7 Day 15-21 — Discovery calls

Goal: 5-10 calls with owners who replied. 15-20 min each. Walk the audit (Module 5) on screen.

2.8 Day 22-30 — Close + onboard

Three scripts for the close:

If YES:

"Great. I will send the contract today via DocuSign. Once you sign, I will send the onboarding packet — about 20 minutes of paperwork — and we are live by [date]. I will be in your calendar for a 30-minute kickoff next Monday."

If NOT YET:

"Understood. I will follow up on [date + 14 days]. The audit and the proposal are yours to keep either way."

If NO:

"Got it. Thanks for the time. If anything changes, you have my contact. Wishing you well on the listing."

DELIVERABLE: CALL SCRIPT — Module 5. The discovery call that converts a prospect into a paying client. Read this before every call.

CREATOR REFERENCE: hostflow.me (4-step process — strategy call is step 1)

MODULE 05

The Call: Discovery Script + Audit

The single most important 20 minutes in your cohosting practice.

5.1 Why this call matters

The discovery call is where the prospect becomes a client or walks. Three things happen on this call:

- You qualify the owner — are they real, do they need help, will they pay?
- You deliver value — the audit, in real-time, on a screen-share.
- You set the next step — the proposal and the contract.

5.2 Before the call

- Open the listing. Spend 15 minutes on it before the call.
- Score all 15 audit points (Module 5.3).
- Pull 2-3 specific observations you can mention.
- Look up the owner's other listings — they may have more than one.
- Have the screen-share ready with the listing open and the audit worksheet visible.

5.3 The 15-point audit you run on the call

Use this on every call. Score each point 0-4. Total possible: 60.

#	Audit point	Scoring criteria
1	Hero photos (max 4 pts)	4 = 20+, pro, golden hour, varied angles. 2 = 10-15, mixed. 0 = 5 or fewer, phone snaps.
2	Photo count	4 = 30+. 2 = 12-25. 0 = under 10.
3	Title	4 = specific (location + feature + vibe). 2 = generic. 0 = over 80 chars or all-caps.
4	Description	4 = opens with experience, scannable amenities, local attractions. 2 = one paragraph. 0 = under 100 words.
5	Pricing strategy	4 = dynamic, weekly review, comp set documented. 2 = set once, never reviewed. 0 = guessed.
6	Calendar freshness	4 = 90 days open, min-min-nights set. 2 = 30-60 days. 0 = next 14 days only.
7	Response time	4 = under 1 hour. 2 = under 12 hours. 0 = over 24 hours.
8	Reviews	4 = 25+ reviews, 4.9 avg, recent. 2 = 10-20, 4.6 avg. 0 = under 10 or 1-3 star.

9	Amenities	4 = all major in listing title. 2 = listed but not featured. 0 = missing obvious.
10	Cleaning SOP	4 = written checklist, photo verify, 4-hr window. 2 = cleaner knows, no doc. 0 = inconsistent.
11	Check-in	4 = smart lock + auto message + 5pm cutoff. 2 = lockbox + manual. 0 = meet-greet.
12	House rules	4 = 5-8 rules, party-free, no smoking. 2 = long list, some unreasonable. 0 = no rules or 20+.
13	Local SEO	4 = neighborhood + city + state + landmarks. 2 = city only. 0 = generic.
14	Superhost	4 = currently Superhost, 1+ year. 2 = lapsed. 0 = never qualified.
15	Repeat guest rate	4 = 15%+ repeat. 2 = 5-10%. 0 = under 5% or no tracking.

5.4 The script — 20 minutes, three sections

Section 1: THEIR situation (0-5 min)

Goals: get them talking. Understand the pain. Set the agenda.

"Thanks for making time. Before I open the listing, I want to understand your situation. Three quick questions: (1) How long have you been hosting? (2) What's working today? (3) What's the one thing you wish was different?"

Listen. Take notes. Don't pitch yet. The answers to these three questions are the material for the rest of the call.

Section 2: Walk the audit (5-15 min)

Share screen. Open the listing. Score each point out loud.

"OK, let me show you what I see. We score listings on 15 dimensions. I'll go through each — some will sound harsh, but this is the same scoring system we use across our portfolio, so it's a fair comparison."

Go through each point. Score. For each point under 4, briefly say what good looks like:

"On photos: 12 right now. We typically see listings at 25-30 photos performing 20% better in conversion. The fix isn't expensive — usually a half-day shoot."

End with the total score and a one-line summary:

"So: 32 out of 60. That's middle of the pack for the market. The biggest gaps are photos and pricing — and those are the two fastest to fix."

Section 3: Next step (15-20 min)

"I'll write this up as a one-page audit PDF — free, no obligation. I'll send it within 48 hours, with three specific recommendations for your listing. If you want to talk next steps after that, I'll include a short proposal. The proposal is yours to keep either way."

Stop talking. Wait for their response. If they ask about pricing, defer to the proposal — don't quote on the call.

5.5 Objection handlers

These are the four objections you'll hear most. Each has a one-line response.

- **"I can manage myself, why do I need you?"** — "Most owners can. The question is whether your time is better spent on the listing or on whatever you were doing before you started hosting. Our owners typically get 15-30% more revenue, but the real win is they take back their evenings."
- **"How much do you charge?"** — "It depends on the listing. I'll include a one-page proposal with the audit, tailored to your property. The numbers will be in there."
- **"I'll think about it."** — "Of course. I'll send the audit within 48 hours. If you want to talk after, just reply. The audit and the proposal are yours either way."
- **"I tried a cohost before and it didn't work."** — "Got it. What didn't work? [Listen.] I'd love to show you how we do it differently — that's what the audit is for. Worst case, you get a free read on your listing."

5.6 After the call

- Within 48 hours: send the audit PDF + proposal PDF.

- If no reply after 7 days: one follow-up email (Module 9.3).
- If still no reply after 14 days: drop them. Move to the next prospect.

DELIVERABLE: ONBOARDING CHECKLIST — Use this the moment a client signs. 30/60/90-day milestones that prevent the 'first 90 days are chaos' failure mode.

CREATOR REFERENCE: cohostingacquisition.com (live coaching cadence), hostflow.me (4-step process: setup)

MODULE 04 — ONBOARDING

The Onboarding Packet

Welcome the new client. Set the cadence. Prevent the 'first 90 days are chaos' failure.

4.1 The welcome packet (sent within 24 hours of signing)

- Welcome email + thank-you note.
- Cohost Management Agreement (the one they signed).
- Calendar invite for the 30-minute kickoff call.
- Cleaning checklist (Appendix A) — for them to review.
- Sample monthly statement (Module 8.2) — so they know what to expect.
- Owner FAQ (Module 4.4 in the v4 version).

4.2 The 30-minute kickoff call agenda

- 5 min: review the agreement, confirm the fee + term.
- 10 min: gather access — Airbnb account, VRBO, smart lock, calendar, vendor contacts.
- 5 min: confirm the cleaning team (or hire one — Appendix A).
- 5 min: walk through the monthly statement template.
- 5 min: set the next review date (30 days out).

4.3 The 30 / 60 / 90-day milestones

Day	Milestone	Owner-facing
Day 1	Welcome packet sent	Kickoff scheduled
Day 7	First audit delivered (the 15-point)	Owner sees the gaps; agrees to the plan
Day 14	First cleaning rotation running	Cleaning SOP + checklist in owner's hands
Day 21	First pricing adjustment	First optimized weekend pricing live
Day 30	First monthly statement	First net-payout to owner
Day 45	Quarterly review prep (informal)	Owner sees the 30-day lift

Day 60	Mid-engagement check-in	Any owner concerns surfaced + addressed
Day 90	Quarterly review #1	First quarterly review call (Module 8.4)
Day 180	Renewal conversation	Yes/no on the next term

4.4 Day 7 onboarding email template

Send this 7 days after kickoff. Sets the expectation that we're a partnership.

Subject: *One week in — here's where we are*

Hi [Owner Name],

Quick check-in at the one-week mark. Three things:

1. **Audit delivered.** Your listing scored [X] out of 60. Top three priorities: [a, b, c]. Action items: [list].
2. **Cleaning rotation running.** [Cleaner name] is on the schedule. First turnover: [date]. Photo verification on each turn.
3. **Pricing adjusted.** This week's pricing reflects [specific adjustment — holiday, season, comp set update].

Anything I missed? Just reply.

[Your name]

DELIVERABLE: CLEANER SOP — Appendix A. Attach as Exhibit A to every cohost contract. Customize for your property's specifics.

CREATOR REFERENCE: ohshehosts.com (operational quality), hostflow.me (the day-to-day)

APPENDIX A

The 7-Zone Cleaning SOP

Every turnover, every property, every time.

A.1 The window

Standard turnover window: 3-5 hours between guests. The clock starts at the checkout time on the previous booking and ends at the check-in time on the next. Plan backwards from check-in: clean (2-3 hours), inspect (30 min), photo verify (15 min), buffer for issues (30-60 min).

A.2 The 7 zones

1. KITCHEN

- Counters wiped (including backsplash and edges)
- Sink polished, drain clear
- Dishwasher empty (cycle complete, no dishes inside)
- Stove wiped (top, knobs, drip pans if applicable)
- Microwave wiped inside and out
- Fridge wiped inside (especially drawers)
- Floors mopped (corners, under the kick plate)
- Towels restocked (2 dish towels, 1 hand towel)
- Paper towels + dish soap stocked
- Coffee filters + coffee stocked (verify brand matches house standard)
- Trash + recycling bins emptied, fresh liners

2. BATHROOMS

- Toilets scrubbed inside, outside, base, and behind
- Toilet seat polished
- Sinks scrubbed, chrome polished
- Mirrors polished (no streaks)
- Showers scrubbed — walls, floor, glass, no hair, no soap scum
- Tubs scrubbed, drain clear

- Floors mopped (corners!)
- Towels replaced (1 bath + 1 hand per guest; 2 bath for primary suite)
- Toilet paper restocked — minimum 4 rolls per bathroom
- Trash bin emptied, fresh liner
- Hair dryer + amenities restocked (verify count)

3. BEDROOMS

- Beds made with fresh linens (sheets + duvet/comforter + pillows)
- Corners tucked (hospital corners if that's the house standard)
- Pillows fluffed, arranged 2-4 per bed depending on bed size
- Nightstands wiped, drawers checked
- Dressers wiped, drawers checked
- Floors vacuumed (under the bed if accessible)
- Closets checked (no items left from previous guest)
- Hangers standardized (same count, same orientation)
- Blackout curtains drawn to verify operation

4. LIVING AREAS

- Surfaces dusted (shelves, picture frames, decor)
- Floors vacuumed + mopped (corners, under furniture if accessible)
- Cushions fluffed, straightened
- TV remotes wiped (both regular + streaming)
- Windows checked (no smudges inside)
- Decorative items straightened (books stacked, pillows arranged)
- Throw blankets folded

5. EXTERIOR

- Entryway swept
- Porch/deck clear of debris
- Outdoor cushions fluffed (if applicable)
- Grill cleaned (if applicable)
- Trash bins put away (not visible from street)
- Outdoor lighting tested (porch light, path lights)
- Plants watered (if applicable)

6. RESTOCKING (universal list)

- Kitchen: salt, pepper, oil, sugar
- Coffee + filters (verify house brand)
- Tea (variety: black, green, herbal)
- Dish soap + sponge
- Hand soap
- Paper towels
- Toilet paper (verify all bathrooms)
- Trash bags
- Laundry detergent (if in-unit)
- Dishwasher pods (if applicable)
- First-aid kit (verify stocked)

7. QUALITY CHECK (photo verification)

- Photo of every room after cleaning — sent to cohost within 1 hour
- Photo of every bathroom
- Photo of kitchen counters and stove
- Photo of beds (made)
- Photo of entryway and exterior
- If any item fails the checklist, cleaner returns to fix within the window
- If cleaner cannot complete in window, escalate to cohost BEFORE check-in time

A.3 The cleaning schedule (handoff form)

After every turnover, the cleaner sends a 1-line confirmation to the cohost:

"[Property] — [date] turnover complete. Photo set: [link]. Issues: [none / list]. Time: [start-end]."

If issues: cleaner flags immediately, cohost decides whether to fix or communicate to the next guest.

A.4 The deep-clean quarterly checklist

Once a quarter, every property gets a deep clean. Adds 4-6 hours on top of standard turnover. Add to the rotation:

- Inside the oven + inside the fridge (deep)
- Behind all major appliances
- Window interiors + tracks
- Baseboards + door frames
- All upholstery (couch, chairs)
- Mattress rotation + protector wash
- HVAC filter check
- Smoke + CO detector battery test

DELIVERABLE: OWNER REPORT — Module 8. Monthly + quarterly + annual. The document that makes owners stay.

CREATOR REFERENCE: cohostingacquisition.com (weekly live coaching cadence), hostflow.me (the deliverable model)

MODULE 08

The Owner Report: Monthly + Quarterly + Annual

Three cadences. Three documents. One rhythm of trust.

8.1 The monthly statement (sent by the 5th)

Always send by the 5th of the following month. If zero bookings, send anyway — silence until the 8th is the second biggest reason owners leave.

The 8 blocks:

Cover line. One-line summary. "Here is the May statement. Net payout: \$3,847. Up 18% from April."

Revenue breakdown. Gross bookings, platform fees, net to host before expenses.

Expenses pass-through. Cleaning, supplies, maintenance, vendor. Each line itemized.

Cohost fee. Your fee under the contract. Visible. Never buried.

Net payout. The number the owner cares about. Bold, large, at the bottom.

Vs last month. Revenue, occupancy, ADR. Side by side.

Coming up. What owner should know about next month.

Open actions. Anything owner needs to do.

8.2 Worked example — The Blue Cabin, May 2026

Block	Content
Cover	Net payout: \$3,847. Up 18% from April. May included Memorial Day (+35% revenue).
Revenue	Gross: \$6,820 (11 reservations). Airbnb service fee: -\$1,025. Cleaning retained: -\$330. Net before expenses: \$5,465.
Expenses	Cleaning (11 × \$85): \$935. Supplies: \$42. Plumber: \$185. Total: \$1,162.
Cohost fee	25% of booking subtotal = \$1,705 (Section 5 of contract).
Net payout	\$5,465 - \$1,162 - \$1,705 = \$3,847.
Vs April	Apr: \$5,778 / 60% / \$192 ADR. May: \$6,820 / 75% / \$213 ADR. +18% rev.
Coming up	June: no holidays, lower occupancy expected. July 4th booked. STR license renewal due 2026-08-15.
Open actions	Confirm license renewal date. Approve plumber invoice (\$185).

8.3 The quarterly review (30-minute call)

Every quarter, schedule a 30-minute call. Email the agenda 48 hours ahead.

Agenda:

- Trailing 3 months: revenue, occupancy, ADR. Trend line.
- Market comparison: how your listing compares to the comp set.
- Maintenance issues — any capital expenses the owner should know about.
- Pricing experiments tried this quarter + what worked.
- SOPs updated this quarter + why.
- Forward-looking: opportunities (additional nights, new platforms, off-season marketing).
- Renewal: is the owner happy? Any reason they would not renew at the end of the initial term?

8.4 The annual plan (sent in month 11)

Sent one month before the year-end. Helps the owner think about the next 12 months.

- Trailing 12 months summary.
- Year-over-year comparison (revenue, occupancy, ADR).
- Capital expenses anticipated for the next 12 months (appliance replacement, deep cleans, paint).
- Pricing strategy for the next 12 months.
- Market position — is the listing gaining or losing ground vs. comps?
- Renewal terms for year 2.
- Optional add-ons: multi-platform expansion, mid-term pivot, premium photography.

8.5 The renewal conversation (at month 5 of 6)

If the initial term is 6 months, start the renewal conversation at the 5-month mark.

"Hi [owner], we have one month left on our initial agreement. Are you happy with the work? Anything you would change for the next 6 months? If you want to continue under the current terms, no action is needed — it auto-renews. If you want to renegotiate terms (price, scope, term length), let's talk now so we have 30 days to land something you both want."

DELIVERABLE: OUTREACH SCRIPTS — Module 9. Five email templates + DM templates + SMS + voicemail. Every channel covered.

CREATOR REFERENCE: cohostingacquisition.com (acquisition system), hostflow.me (consistent client pipeline)

MODULE 09

Owner Outreach: Every Channel

5 email scripts + DMs + SMS + voicemail. Copy, replace [brackets], send.

9.1 The conversion funnel (target benchmarks)

9.2 EMAIL — Listing-mining cold pitch

Subject: *Quick observation about [Property Name]*

Hi [owner name],

I am [your name], a cohost in [city]. I came across your listing at [address] while reviewing the [cabin / urban / etc.] market.

I noticed two patterns that often cost owners in your market \$X/year:

(1) [Specific observation — calendar stale, photo count low, etc.]

(2) [Second specific observation]

I am offering a free 15-minute audit — no pitch, no contract, just observations on what is fixable. If interested, reply with a time that works and I will send a calendar link.

[Your name] · [Phone] · [LinkedIn]

9.3 EMAIL — Follow-up after no reply (Day 7)

Subject: *Re: Quick observation about [Property Name]*

Hi [owner name],

Following up on the audit offer from last week. If you weren't interested or the timing is off, no problem — happy to take you off the list.

If you are still curious but didn't get to it, I can do the audit async — just send me your listing URL and I will email you the observations in writing.

Reply 'send it' if that works.

[Your name]

9.4 EMAIL — Real-estate agent referral

Subject: *Co-hosting one-pager for your investor clients*

Hi [agent name],

Nice to meet you at [event / through mutual contact]. I run a small cohosting practice in [city] — I take over the day-to-day for STR owners who can't or don't want to self-manage.

If you ever run into an investor client whose Airbnb is performing poorly, I would love to be the person you hand a one-pager to.

No obligation on your end. If it works out, I send a small referral fee per signed owner.

Thanks for the intro, regardless.

[Your name]

9.5 DM — Furnished Finder

Hi [owner name] — saw your FF profile for [city/region]. I help remote owners in [region] with the same setup — 30+ night average stays, mid-term market, owner has never visited the property.

Quick question: is the calendar stale because you ran out of bandwidth, or because you are between setups? The fix is different for each.

[Your name]

9.6 Reddit value-add comment (template)

If someone posts 'How do I start cohosting without owning property?', reply with:

"I am a cohost in [city]. Here is what worked for me in the first 90 days: list your niche (urban / cabin / furnished / mid-term), build your comp set (3-5 properties within 5 miles), write a one-page positioning brief, and send 30 cold pitches using a specific observation about each listing (not a generic pitch). I have a free PDF of 21 AI prompts for STR hosts if you want — DM me."

Three Reddit rules: (1) reply only when useful, not every thread; (2) never link to your product in reply — 'DM me' only; (3) one thread per subreddit per week.

9.7 SMS — Warm lead follow-up

Use only after a call or in-person meeting. SMS is for existing conversations, not cold pitches.

"Hi [name] — [your name] from the audit call. Following up on the 3 priorities we discussed. Sending the audit PDF today by 5pm. Anything I should add?"

9.8 Voicemail script (90 seconds)

Use when calling owners who haven't replied to email. Leave a 90-second voicemail, max.

"Hi [name], this is [your name] with [business]. I sent you an email a few days ago about your listing at [address] — I noticed [one specific thing] and thought it might be worth a 15-minute audit, free, no obligation. My number is [number]. Thanks."

Rules for voicemails:

- One specific observation. Not three. Not 'I have some ideas.' Specific.
- Under 30 seconds if possible. Owners don't have patience for more.
- Leave your number twice if leaving an international number.
- Follow up with an email immediately after: 'Just left you a voicemail at [time]. Same offer as in the email. The audit PDF.'

9.9 The audit-delivery email (sent 48h after the call)

Subject: [Property Name] audit — 15 points, observations attached

Hi [owner name],

Thanks for the call on [date]. Attached is the audit — 15-point review with specific observations and recommendations.

Top 3 things I would prioritize in week 1:

(1) [Highest-leverage fix]

(2) [Second-priority fix]

(3) [Third-priority fix]

Top 3 things for month 1: [list].

My proposed engagement: [summary]. Fee: [number]. Term: [length].

Let me know when you have 30 minutes — I will send a calendar link. No pressure either way.

[Your name]

DELIVERABLE: PROPOSAL — The 2-page proposal you send 48 hours after the discovery call. Together with the audit, it converts the prospect.

CREATOR REFERENCE: hostflow.me (4-step process), Snow Studio AgenticOS (proposal structure)

APPENDIX C

The 2-Page Proposal Template

Send within 48 hours of the discovery call. Together with the audit, it's your closing document.

C.1 Page 1 — The cover

Below is the proposal you fill in. The bold brackets are placeholders.

===

Proposal for [Owner Name]

[Property Address]

Prepared by [Your Name] · [Date] · [Your Email] · [Your Phone]

===

The opportunity. Your listing scored [X] out of 60 on our audit. The market median is [Y]. The top three issues are: [a, b, c]. In our experience, owners see meaningful lifts in revenue and occupancy inside 90 days when these gaps are closed.

The engagement. We will run your listing as a cohosting engagement for an initial term of [6 / 12] months.

Services included:

- Listing management on Airbnb, VRBO, Booking.com
- Guest communications with 24-hour SLA
- Dynamic pricing — daily review
- Cleaning coordination + quality verification
- Maintenance triage up to \$[X] per repair (above that, your approval)
- Monthly financial statement by the 5th of each month
- Quarterly business review call

The fee. [25]% of the gross booking subtotal per confirmed reservation, paid monthly. Minimum monthly fee: \$[250].

Worked example: On a listing averaging \$5,000/month in bookings, your fee would be \$1,250/month. On a slow month with \$1,000 in bookings, you'd pay the \$250 minimum. The structure protects both sides: when the listing performs, we share the upside; when it's slow, you have a predictable floor.

===

C.2 Page 2 — The economics

===

What changes in month 1.

- Week 1: audit delivered (you already have it), kickoff call scheduled, cleaning rotation confirmed.
- Week 2: pricing tool installed + comp set established. First weekend of optimized pricing.
- Week 3: messaging templates live, 24-hour SLA active.
- Week 4: first monthly statement delivered. Owner sees the new baseline.

What changes in month 3. First quarterly review call. We walk the trailing 3 months — revenue, occupancy, ADR, owner satisfaction. Adjust the engagement if needed.

What changes in month 6. Renewal conversation. If you want to continue, no action needed — it auto-renews. If you want to renegotiate terms (price, scope, length), let's talk 30 days before the term ends.

What we ask of you.

- Maintain the property in safe and habitable condition.
- Maintain homeowner's + STR liability insurance (\$1M+).
- Maintain required STR permits and licenses.
- Approve any single expense above \$[X] before we incur it.
- Be responsive to our monthly statement questions.

What we don't do.

- We don't own the property.
- We don't sign your mortgage or insurance.
- We don't pay property taxes.
- We don't handle major capital expenditures without approval.

The contract. Our standard cohost management agreement is attached. It covers all of the above in 18 clauses. We strongly recommend your attorney review before signing.

Next step. If you want to move forward, reply to this email and I'll send the contract via DocuSign today. If you want to talk through anything, here is my calendar: [link].

[Your Name]

[Your Email] · [Your Phone]

===

C.3 The proposal email that wraps it

Send the proposal + the audit as a single PDF attachment. Email body:

"Hi [owner name], attached is the proposal. Same structure as what we walked through on the call — three services, one fee, monthly statements. No action required today. If you want to talk next steps, here is my calendar: [link]. If you want to move forward, just reply 'send it' and the contract lands in your inbox within the hour."

DELIVERABLE: GUEST TEMPLATES — Module 6 + Appendix B. 12 message templates covering every guest touchpoint. Copy, customize, save as Quick Replies in Airbnb.

CREATOR REFERENCE: hostflow.me (the day-to-day), cohostingacquisition.com (live coaching)

MODULE 06 + APPENDIX B

The 12 Guest Templates

Every message you'll send, written once. Copy, customize once, save as Quick Replies.

B.1 Save these as Airbnb Quick Replies

Every Airbnb account has Quick Replies — saved templates you can insert with one click. Set these up once. They'll save you 30 minutes per guest.

1. Inquiry (within 1 hour)

Hi [guest first name]! Thanks for reaching out about [property name]. The dates you mentioned are available. Quick question: who is joining you, and what's the purpose of the trip? Happy to host if it's a good fit.

2. Booking confirmation

Welcome to [property name]! Looking forward to hosting you on [check-in date]. I'll send check-in instructions 48 hours before arrival. If you have any questions between now and then, just reply to this thread.

3. Pre-arrival (48 hours)

Hi [guest first name] — you're checked in tomorrow at [check-in time]. A few things: (1) Check-in: smart lock code is [code], active from [time]. (2) Parking: [instructions]. (3) Wi-Fi: [network / password]. (4) House rules: [link to listing]. (5) Local recs: [link to guidebook]. See you tomorrow!

4. Day-of check-in (1 hour before)

Hi [guest first name] — checking in! The door code is [code]. If anything is missing or not as described, reply to this message and we'll sort it.

5. Mid-stay check-in (Day 2 of longer stay)

Hi [guest first name] — quick check-in. How's the property? Anything you need?

6. Mid-stay issue (general)

Sorry to hear that. Can you send a photo of [the issue]? We'll have it resolved within [time estimate]. In the meantime, here's [a workaround].

7. Checkout reminder (24 hours before)

Just a heads-up — checkout is at [time] tomorrow. A few reminders: (1) Please start the dishwasher if you used it. (2) Lock the door on your way out (the code auto-disables). (3) Leave the keys [location]. Safe travels!

8. Post-checkout thank-you (within 24 hours)

Thanks for staying at [property name]! If you enjoyed your visit, a quick review would mean a lot: [review link]. Hope to host you again.

9. Review request (Day 7 post-checkout)

Hi [guest first name] — one more ask. Reviews are how Airbnb hosts survive. If you have 60 seconds, here's the link: [review link]. And if anything was less than perfect, reply to this message first — we want to fix it.

10. Pre-approval questionnaire (Module 6.2)

Thanks for your interest! Before I confirm, three quick questions: (1) Who's joining you? (2) Purpose of the trip? (3) Anything we should know about your group? Thanks!

11. Decline (general, kind)

Thanks for your interest, but this property isn't a fit for [specific reason]. Wishing you well on the trip.

12. Party-risk decline (firm but kind)

Thanks for reaching out. Unfortunately this property doesn't allow [the event you described]. We have a strict no-party policy. Wishing you well.

13. Maintenance emergency response

[Guest name], we've identified [the issue] and a vendor is on the way. ETA: [time]. In the meantime, [workaround]. We apologize for the inconvenience — we'll address this at checkout.

B.2 The 3-2-1 backup messaging rule

Every guest should hear from you at least:

- **3 times before the stay** — booking confirmation, pre-arrival, day-of check-in.
- **2 times during the stay** — mid-stay check-in, issue response (if any).
- **1 time after the stay** — thank-you + review request.

That's the minimum. Slower response = lower review velocity = lower search rank.

B.3 House manual + guidebook (links to set up once)

- House manual — Airbnb host tools → Listing → House manual.
- Guidebook — Airbnb host tools → Listing → Guidebook. Add 10-15 local recs (restaurants, groceries, hikes, attractions).
- Check-in instructions — Listing → Check-in instructions. Clear, scannable, no fluff.

DELIVERABLE: MAINTENANCE SOP — Appendix D. The triage playbook + vendor network + emergency protocols.

CREATOR REFERENCE: ohshehosts.com (operational quality), hostflow.me (the day-to-day)

APPENDIX D

The Maintenance SOP

Triage playbook + vendor network + emergency protocols. Save your evenings.

D.1 The 4-tier triage system

Every maintenance issue falls into one of four tiers. The tier determines response time and who pays.

Tier 1 — Emergency (response: within 2 hours, 24/7)

Definition: anything affecting guest safety, habitability, or active stay.

- Burst pipes, flooding, no water
- No heat in winter / no AC in summer (depending on climate)
- No electricity, no hot water
- Gas leak (call gas company first, then 911)
- Lockout — guest cannot access the property
- Active safety hazard (smoke, fire, structural)

Response protocol: Acknowledge the guest within 30 minutes. Dispatch vendor. If the property is uninhabitable, find alternative accommodation and refund.

Tier 2 — Urgent (response: same day, business hours)

Definition: significant disruption but property is still usable.

- Major appliance failure (fridge, oven, washer, dryer)
- HVAC not working (but no immediate safety risk)
- Plumbing backup (slow drain, running toilet)
- Broken window or door (security risk)
- Pest sighting (single incident)

Response protocol: Acknowledge within 2 hours. Dispatch vendor. Owner notification by end of day.

Tier 3 — Routine (response: within 3 business days)

Definition: cosmetic or non-urgent. Doesn't affect the stay.

- Cosmetic damage (paint touch-up, scuff marks)
- Light bulb replacement (non-emergency)

- Loose cabinet handle
- Slow-filling toilet
- Wobbly chair / table
- Guest feedback that something 'looks worn'

Response protocol: Add to the property's maintenance backlog. Bundle into the next scheduled visit. No guest communication required.

Tier 4 — Capital (response: plan within 30 days)

Definition: large expense (\$500+). Requires owner approval.

- Appliance replacement
- HVAC system replacement
- Roof repair
- Major plumbing (re-pipe, water heater replacement)

Response protocol: Quote from at least 2 vendors. Present to owner with recommendation. Owner approves in writing. Schedule. Track in the property's capital expenses log.

D.2 The vendor network

Build a vendor list for every category in your market. Aim for 2 vendors per category — when one is unavailable, you have backup.

Category	Vendor 1	Vendor 2	Notes
Plumber	[Name] · [Phone]	[Name] · [Phone]	24/7 emergency line required
Electrician	[Name] · [Phone]	[Name] · [Phone]	
HVAC	[Name] · [Phone]	[Name] · [Phone]	Quarterly filter check
Locksmith	[Name] · [Phone]	[Name] · [Phone]	Lockout response < 30 min
Handyman	[Name] · [Phone]	[Name] · [Phone]	
Pest control	[Name] · [Phone]	[Name] · [Phone]	
Cleaning backup	[Name] · [Phone]	[Name] · [Phone]	Coverage when primary cleaner is sick
Appliance repair	[Name] · [Phone]	[Name] · [Phone]	
Glass / windows	[Name] · [Phone]	[Name] · [Phone]	
Roofing	[Name] · [Phone]	[Name] · [Phone]	

D.3 The maintenance log (per-property)

Every property has a maintenance log. Format: a spreadsheet or Notion database. Columns:

- Date
- Tier (1-4)
- Description
- Vendor + cost
- Owner approval required (Y/N)
- Resolved date
- Notes

D.4 The preventive maintenance quarterly checklist

- Test smoke + CO detectors
- Replace HVAC filters
- Test all plumbing for slow leaks
- Check all electrical outlets (especially exterior)
- Inspect roof for damage / missing shingles
- Clean gutters
- Test the smart lock backup code

- Test Wi-Fi range in every room
- Inspect all appliances for wear
- Refresh welcome amenities

DELIVERABLE: PRICING CALCULATOR — Modules 3 + 7 + Appendix E. The pricing math + comp-set methodology + worked examples.

CREATOR REFERENCE: hostflow.me (multi-channel distribution), cohostingacquisition.com (client acquisition math)

APPENDIX E

The Pricing Calculator

Pricing math + comp-set methodology + worked examples. The lever that converts views to revenue.

E.1 Base price — how to set it

Your base price is the nightly rate when nothing unusual is happening — a Tuesday in February, a Monday in May.

The comp-set methodology (5 steps):

- Open Airbnb in your market. Filter by bedrooms, amenities that match your niche.
- Pick the 3-5 most comparable listings within 5 miles. (Don't include listings that are way above or way below your standard.)
- For each comp, record the WEEKDAY rate and the WEEKEND rate.
- Set your base price at the MEDIAN of those 5 rates. (Median, not average — the median is the actual mid-market rate.)
- Re-pull the comp set every 30 days. The market shifts; your base price should shift with it.

E.2 The 4 adjustments

Apply on top of your base price. Each adjustment is independent — you can stack them.

- **Day of week.** Fri/Sat: +15-30%. Weekday: -10-15%.
- **Seasonality.** Holiday weekends, school breaks, local events: +30-200%. Off-season: -10-20%.
- **Lead time.** Last-minute (under 14 days): -10-30%. Bookings 60+ days out: +5%.
- **Occupancy.** Empty 30 days out: -5-10%. 80%+ booked 30 days out: +5%.

E.3 The 30-night worked example (May, mixed market)

Base: \$185/night. Cabin in Asheville, NC. 30 nights in May.

Date	Day	Day-of-week adj.	Seasonality adj.	Occupancy adj.	Final price
May 1	Fri	+25%	—	—	\$231
May 2	Sat	+30%	—	—	\$241
May 3	Sun	+10%	—	—	\$204

May 4	Mon	-15%	—	—	\$157
May 5	Tue	-15%	—	—	\$157
May 6	Wed	-15%	—	—	\$157
May 7	Thu	-10%	—	—	\$167
May 8	Fri	+30%	+10% (Memorial Day)	—	\$241
May 9	Sat	+30%	+20% (Memorial Day)	—	\$278
May 10	Sun	+10%	+10% (Memorial Day)	—	\$222
May 11	Mon	—	+10% (Memorial Day)	—	\$204
May 12-31	Mixed	—	—	Rolling	\$140-230

Total May: \$6,820. Flat at \$185: \$5,550. The 4 adjustments = +23% revenue.

E.4 Your fee math (3 worked examples)

Use these to quote owners on the discovery call. They are conservative.

Example 1 — Asheville cabin

- 3BR cabin · \$185 ADR · 65% occupancy · 30 nights = \$5,555 monthly revenue
- 25% gross fee = \$1,389/month to you
- Owner keeps: \$4,166 minus expenses

Example 2 — Urban 1BR loft

- 1BR urban · \$95 ADR · 80% occupancy · 30 nights = \$2,280 monthly revenue
- 25% gross fee = \$570/month to you
- If hybrid (25% + \$250 min): \$570 this month. Next month if occupancy drops to 50%, you earn \$500 (minimum wins).

Example 3 — Mid-term furnished

- Furnished 2BR · \$3,200/month · 30-night average stay · 100% occupancy = \$3,200 monthly revenue
- Often a flat-fee structure: \$400-600/month to you, regardless of revenue
- Lower per-property revenue, but zero turnover cost (furnished, mid-term) and high owner retention

E.5 Tool stack — the calculator + automation

- **Manual:** This PDF + a spreadsheet. Re-pull comp set monthly.
- **Semi-automated:** PriceLabs (\$25/mo) or Wheelhouse (\$25/mo). Auto-adjusts based on comp set + demand data.
- **Full:** PriceLabs + Hospitable (\$30/mo, channel manager + messaging automation). Best UX, lowest time cost.
- **For 5+ properties:** OwnerRez (\$50/mo, full PMS). You stop doing the operational work; the software does it.

E.6 The pricing review (weekly)

Every Friday, 15-20 minutes:

- Look at the past week's bookings. Were you booked more or less than expected?
- Re-check your comp set. Did any of the 5 properties change their pricing this week?
- Adjust the base price if your comp median moved >5% in either direction.
- Look at the upcoming 30 days. Any empty weekends? Drop them 5-10% if so.
