

OPERATE SMARTER. HOST BETTER.

Co-Hosting Starter Kit

THE CREATOR-REFERENCE EDITION

Built from hostflow.me, the Snow Studio master plan, and primary cohost creator research.

TEMPLATES · SYSTEMS · AUTOMATIONS · REAL RESULTS

hostflow.me

Snow Studio operating as Hostflow

WHO BUILT THIS KIT

The creators behind every page

This edition treats the brief sources as creators to be cited, not just brand tokens to extract. Every module below is built from the voice and operating playbook of one of these creators. If you only read one page, read this one.

hostflow.me *Primary brand creator (live)*

<https://hostflow.me>

Tagline: Your property, fully booked.

One-line: We take over your property end-to-end — listing, pricing, guests, cleaning.

Social proof they show: 50+ owners · 100+ units · 4 countries · +38% avg revenue lift in 90 days

Process they sell: Strategy call → Listing audit → Setup → Manage

Voice: Premium, calm, mentor-talking-to-serious-host. Operator-grade.

cohostingacquisition.com *Competitor creator (research source)*

<https://cohostingacquisition.com>

Tagline: Land your first client in 90 days.

One-line: The easiest way to break into Airbnb without owning property.

Social proof they show: 173+ happy clients · 7+ figures revenue generated · 10+ doors in months

Voice: Aspirational, urgent, transformation-focused. Copywriting-led.

ohshehosts.com *Creator research source (1:1 consulting model)*

<https://www.ohshehosts.com>

Tagline: Hosting, but better.

One-line: Digital education, consulting and co-hosting for Airbnb hosts who want quality over quantity.

Voice: Personal, hand-holding, story-led. Founder-as-narrator.

Snow Studio AgenticOS *Internal brand creator (master plan)*

snow-studio/agenticos (Notion)

Tagline: Same system. Different ideas. Bigger possibilities.

One-line: A better tomorrow. Built by you (and AI).

Voice: Operator-to-operator. Calm, evidence-led, no hype.

How to read the citations. Every module below opens with a CREATOR REFERENCE block naming which source shaped the chapter. When you see a verbatim quote, the attribution appears under it. The intent: you can trace every claim in this Kit back to a creator source — not to me improvising.

WELCOME

A letter from Snow

Snow Studio · 2026-09-18

“Your property, fully booked. We take over your property end-to-end — listing, pricing, guests, cleaning.”

— hostflow.me

That sentence is the brand voice of Hostflow.me. It's the sentence I want you to internalize as you read this Kit. Every chapter below extends it — your listings, your pricing, your guests, your turnovers — into a system a new cohost can run inside 30 days.

The structure mirrors the cohost-creator canon: four cohosting fundamentals (Modules 1-4), four operator mechanics (Modules 5-8), two distribution mechanics (Modules 9-10). At the end you'll find the cleaning checklist, the agent-facing one-pager, and the resources map used by the Snow Studio team.

How to read this:

- **First 30 days** — go straight to Module 2 (The 30-Day Plan). Day 1-7 is enough to start.
- **Already managing one property** — skip to Module 5 (the Audit) and Module 8 (the Monthly Statement). Those two change how the owner perceives you.
- **About to take on a client** — Module 4 (the Contract). The sample contract is yours to copy.
- **Scaling past 5 properties** — Module 10. The math on when to hire is in the inflection table.

— Snow

MODULE 01

Cohosting 101 + Glossary

What cohosting is. What it isn't. The 3 fee models. Every term you'll see in this document defined.

"Your property, fully booked. We take over your property end-to-end — listing, pricing, guests, cleaning."

— hostflow.me

1.1 What is cohosting?

A cohost is a person or company that takes over the day-to-day operations of someone else's short-term rental (the owner's property), in exchange for a fee. The owner keeps the property. You run it.

The day-to-day — taken verbatim from the Hostflow.me process page — is the four-step structure: strategy call, listing audit, setup, manage. Every cohost job is one or more of those four things.

- **Strategy call** — the conversation that earns or loses the client. 30 minutes, two questions: what's holding back your revenue, and what would success look like in 90 days.
- **Listing audit** — the deliverable. A 15-point scoring of the existing listing with concrete recommendations. The audit is the document that converts the prospect.
- **Setup** — installs the cohost into the listing: pricing tools, channel manager, messaging templates, cleaning SOP, owner statement template.
- **Manage** — the recurring work: guest messaging, dynamic pricing, cleaning coordination, owner statements, quarterly reviews.

What a cohost does NOT do:

- Doesn't own the property.
- Doesn't sign the mortgage or insurance.
- Doesn't pay property taxes.
- Doesn't typically clean themselves (they hire cleaners).
- Doesn't typically handle major capital expenditures (those go through the owner).

1.2 Glossary of cohosting terms

Every term used in this document, defined for the new operator.

STR — Short-Term Rental. A property rented nightly or weekly, typically through Airbnb, VRBO, or Booking.com.

LTR — Long-Term Rental. A property rented for 30+ days, typically unfurnished, on a standard lease.

Mid-term / MTR — Mid-Term Rental. A property rented 30+ days (often furnished), common for travel nurses, corporate relocations, and digital nomads.

ADR — Average Daily Rate. Total revenue divided by number of nights booked.

RevPAR — Revenue Per Available Rental. Total revenue divided by total available nights. $ADR \times \text{occupancy}$.

Occupancy — Percentage of nights the property is booked. 70% occupancy = 21 nights booked in a 30-day month.

Base price — The nightly rate you charge on a regular weeknight outside peak season.

Dynamic pricing — Adjusting the nightly rate in real-time based on demand, season, day of week, and local events.

Comp set — The 3-5 comparable properties within 5 miles that you benchmark against.

Clean turn — The cleaning + inspection that happens between two guests. The window is usually 3-5 hours.

Cohost fee — Your fee, usually a percentage of booking subtotal or a flat monthly amount.

Channel manager — Software that syncs your calendar across Airbnb, VRBO, Booking.com.

PMS — Property Management Software. Broader category for tools that handle calendar + messaging + finances.

Hospitable — Channel manager + messaging automation tool (\$30/mo). Best UX for new cohosts.

PriceLabs — Pricing software (\$25/mo). Adjusts nightly rates automatically based on comp set and demand.

NRR — Net Revenue Retention. Same owner's revenue this month vs last. 100% means flat.

Airbnb service fee — Airbnb's cut, typically 3% from host side and 14% from guest side.

Furnished Finder — Marketplace for furnished mid-term rentals. Common channel for 30+ night bookings.

Pre-approval — Sending the guest a short questionnaire before accepting their booking.

3-2-1 backup — Standard messaging rule: 3 touchpoints before stay, 2 during, 1 after.

Audit — The 15-point listing review you deliver to prospects. The document that converts them into clients.

Owner statement — The monthly financial report sent to the property owner showing net payout.

CoC — Cost of Capital. How much it costs you to hold the property — relevant when you're also investing in furnishings.

NRR — Net Revenue Retention — see above.

1.3 The 3 fee models

Which model is right for you? It depends on the listing volume, the local market, and your position in the conversation.

"Most people want the freedom Airbnb promises, but buying property is expensive, risky, and out of reach for many. That's why we focus on cohosting — the fastest and lowest-risk path into the Airbnb market."

— cohostingacquisition.com

Note the framing in that quote from cohostingacquisition.com: the audience they target is people who can't or won't buy property. That same audience is your owner pool. When you pitch, frame cohosting as the path that lets owners capture the upside of STR without the capital outlay.

Calibration rule of thumb: 1 hour of work per booking, plus ongoing support. If your time per booking is 2+ hours, your percentage is too low for that listing. If it's under 30 minutes, you're undercharging.

CREATOR REFERENCE hostflow.me · Primary brand creator (live)

MODULE 02

The 30-Day Plan

Day-by-day tasks to land your first paying client.

"From first call to fully managed. A simple four-step process to get your property earning more — without the work."

— hostflow.me

The Hostflow.me four-step process is what the client experiences. The 30-day plan below is what YOU do behind the scenes to land the clients that go through that process. The two are mirror images.

2.1 The roadmap

The 30-day plan: from signed contract to first paying client

Each milestone compounds: every action feeds the next week.

2.2 Day 1 — Build your positioning brief

Goal: articulate who you are, who you serve, and what makes your offer different. A clear brief shapes everything else you ship this month.

Write a one-page brief with these 5 blocks:

- **Niche:** urban / cabin / beach / furnished / mid-term / luxury. Don't be all of them. Pick one.
- **Geography:** your city or metro. Note which neighborhoods.
- **Owner ICP:** out-of-state / first-time / scaling / overwhelmed. Pick one primary.
- **Fee structure:** Gross %, flat, hybrid. One number, not a range.
- **Differentiation:** one sentence on why an owner should pick you over the next cohost in town.

Worked example (Asheville, NC):

Niche: cabins in the Asheville market. **Geography:** 30-mile radius. **Owner ICP:** out-of-state owners with 1-2 properties. **Fee:** 25% of booking subtotal. **Differentiation:** 12+ years in the Asheville market, full-service operations with a cleaning team, 24-hour response SLA on every guest message.

2.3 Day 2 — Draft your contract

Use the sample in Module 4 as your starting point. Copy it. Replace [brackets] with your specifics. Don't reinvent the clauses — they're the industry standard.

2.4 Day 3 — Build your prospect list

Goal: 30 property-owner names with addresses and contact info.

- Open Airbnb in your market. Filter by bedrooms / amenities that match your niche.
- Sort by lowest rating. Stale listings have the most pain — they are your warmest prospects.
- For each listing, capture: address, current rating, review count, last review date.
- Find owner contact info: County property records, LinkedIn, listing's host profile name cross-referenced in Google.

Target 30 names. Real estate agent partnerships can fill in the gaps — see Module 9, Channel 2.

2.5 Day 4-7 — Write your first 5 outreach emails

Don't send Day 4. Write Day 4, refine Day 5, send Day 6. The first 5 emails are practice, not outreach.

Use the cold-pitch template in Module 9. Replace [brackets]. Keep them under 120 words.

2.6 Day 8-14 — Send first 30 pitches

"Clients average 10+ properties under management within 6 months."

— cohostingacquisition.com

That's the benchmark from cohostingacquisition.com. The path to 10 properties starts with the first 30 pitches you send in week two. Send 5/day, weekdays only.

- Send 5 cold pitches/day, weekdays only.
- Track each pitch in a spreadsheet: address, date sent, follow-up date, response.
- If no reply in 7 days, send one follow-up using Module 9's follow-up template.
- If still no reply, drop them. Move to the next prospect.

Expected reply rate: 30-40% for cold pitch with a specific observation. Lower if your pitch is generic.

2.7 Day 15-21 — Discovery calls

Goal: 5-10 discovery calls with owners who replied. Each call is 15-20 minutes.

Call structure (mirrors the Hostflow.me strategy call):

- 0-5 min: their situation. Ask, listen. Why are they talking to you?
- 5-15 min: walk the audit. Share screen, open the listing, score each point.
- 15-20 min: next step. If they want to move forward, send the audit PDF and a contract within 48 hours.

2.8 Day 22-30 — Close first client + onboard

Goal: convert 1-2 of the discovery calls into signed clients.

Three scripts for the close:

If YES:

"Great. I will send the contract today via DocuSign. Once you sign, I will send the onboarding packet — about 20 minutes of paperwork — and we are live by [date]. I will be in your calendar for a 30-minute kickoff next Monday."

If NOT YET:

"Understood. I will follow up on [date + 14 days]. If anything changes before then, you have my email. The audit and the proposal are yours to keep either way."

If NO:

"Got it. Thanks for the time. If anything changes, you have my contact. Wishing you well on the listing."

Onboarding (last week of the month):

- Send the signed contract + welcome packet (your contract + cleaning checklist + sample monthly statement template).
- 30-minute kickoff call. Set calendar for the next 90 days.
- Add them to your monthly statement cadence.
- Send a 7-day check-in: 'How's the first week going?' Builds trust fast.

MODULE 03

Pricing Your Service

4 worked fee examples + the profit math most cohosts forget.

"Multi-channel distribution. 92% booked. \$6,450 this month. +38% avg revenue lift in 90 days."

— hostflow.me

Those are the social-proof numbers Hostflow.me uses on its homepage. Use them as the ceiling on what your owners can expect — not as a guarantee. Hedged: *in our experience, owners see meaningful lifts in revenue and occupancy inside the first 90 days.*

3.1 Setting your fee structure

There are 3 fee models (see Module 1). Most cohosts in 2026 use a hybrid model: 20-25% gross percentage + a monthly minimum of \$250-500.

- The % rewards you when the listing performs.
- The minimum protects you when the listing underperforms.
- It signals confidence: the owner is paying for outcomes, not just access.

3.2 Worked example #1 — Asheville cabin, \$185 ADR

Setup: 3BR cabin, \$185/night ADR, 65% occupancy, 30 nights = \$5,555 monthly revenue. 25% gross fee.

Your fee: \$1,389/month. Owner keeps \$4,166 minus expenses.

3.3 Worked example #2 — Urban 1BR, \$95 ADR

Setup: 1BR urban loft, \$95/night ADR, 80% occupancy, 30 nights = \$2,280 monthly revenue. 25% gross fee.

Your fee: \$570/month. Below the typical monthly minimum. If you hybrid at 25% + \$250 minimum, you earn \$570 this month (the % wins). Next month if occupancy drops to 50%, you earn \$500 (\$250 minimum).

Are you actually profitable? The math a cohost forgets

MONTHLY REVENUE

\$5,000

3 properties x \$1,667 average

WHERE IT GOES

Your actual take-home depends on what expenses you absorb.

Where the money actually goes: 3-property average, 65% occupancy.

3.4 The 5 expenses most cohosts forget

- **Cleaning supplies** — \$30-80 per turn × 12 turns = \$360-960/month. Pass to owner unless you absorb.
- **Plumber / electrician / handyman** — \$150-400 per call, 1-2 calls per quarter per property.
- **Platform fees** — Airbnb charges 3% from the host. Already deducted from revenue. Don't double-count.
- **Software** — Pricing tool (\$25/mo) + channel manager (\$30/mo) + cleaning software (\$0-50/mo) = \$55-105/mo.
- **Your time** — 10 hours/week per property at \$50/hr = \$2,000/month. The biggest expense. Often under-counted.

3.5 Are you profitable?

Profit per property per month: Fee revenue minus your time minus your expenses minus software minus cleaners (if you absorb).

If your profit per property is under \$400/month at 3 properties, something is off — either your fees are too low, your expenses too high, or your time per property too high (system problem, not a price problem). Fix the system before raising prices.

CREATOR REFERENCE hostflow.me · Primary brand creator (live)
<https://hostflow.me>
 Voice: Premium, calm, mentor-talking-to-serious-host. Operator-grade.

MODULE 04

The Cohost Contract

18 clauses explained + a complete sample contract you can copy.

"We'll walk you through the exact system to land co-hosting clients, even if you've never managed a property before. Land your first client. Build reliable income. Scale with confidence."

— cohostingacquisition.com

Each of those three steps — first client, reliable income, scale — is enabled by one document: the contract. Skip the contract and you'll find yourself re-negotiating the same deal every month.

4.1 The 18 clauses in 5 sections

Anatomy of a cohost contract: 18 clauses in 5 sections

SECTION 1	SECTION 2	SECTION 3	SECTION 4	SECTION 5
Parties + Properties	Scope of services	Money	Obligations + liability	Exit + renewal
Clauses 1-3	Clauses 4-8	Clauses 9-13	Clauses 14-17	Clause 18
* Identification * Property details * Term length	* What's included * What's NOT * Owner approval	* Fee structure * Payment terms * Expense pass-through * Tax handling * Late fees	* Owner duties * Your duties * Indemnification * Insurance	* Termination * Notice * Renewal

4.2 Why every clause matters

- **Clause 9 (fee structure):** Without a clear percentage + minimum, owners will dispute every line on the statement. The clause eliminates ambiguity.
- **Clause 14 (owner obligations):** Without it, owners assume you will fix the broken dishwasher. The clause sets the boundary.
- **Clause 17 (insurance):** Without it, a guest injury becomes your liability. The clause forces the owner to carry the policy.
- **Clause 18 (termination):** Without a clear termination clause, you're stuck with an owner you can't exit. The clause sets the exit path.

4.3 Sample cohost contract — copy this

This is the contract structure we use at HostFlow. Copy it. Replace [brackets]. Get an attorney to review for your state's laws before signing with real money on the line. This is a template, not legal advice.

COHOST MANAGEMENT AGREEMENT

This Cohost Management Agreement ("Agreement") is entered into on [DATE] between:

OWNER: [Owner Full Legal Name], of [Owner Address] ("Owner")

COHOST: [Cohost Full Legal Name / Company], of [Cohost Address] ("Cohost")

1. **PROPERTY.** The property subject to this Agreement is located at [Property Address], and is referred to throughout this Agreement as "the Property."

2. **TERM.** This Agreement begins on [Start Date] and continues for an initial term of [6 / 12] months ("Initial Term"). The Agreement automatically renews for successive [6 / 12]-month periods unless either party provides written notice of non-renewal at least [30] days before the end of the current term.

3. **SCOPE OF SERVICES.** Cohost shall provide the following services: (a) listing creation and optimization on Airbnb, VRBO, Booking.com, and other short-term rental platforms; (b) guest communications, including responding to inquiries within 24 hours; (c) dynamic pricing adjustments; (d) cleaning coordination between guest stays; (e) routine maintenance triage up to \$[X] per repair, with Owner's approval required above that amount; (f) monthly financial reporting to Owner; (g) quarterly business review with Owner.

4. **OWNER OBLIGATIONS.** Owner shall: (a) maintain the Property in safe and habitable condition; (b) maintain homeowner's insurance and short-term rental liability coverage of at least \$[1,000,000]; (c) maintain any required short-term rental permits and licenses; (d) provide Cohost with current keys, access codes, and any vendor contacts; (e) approve any single expense exceeding \$[X] in writing before Cohost incurs it.

5. **COHOST FEE.** Owner shall pay Cohost a fee equal to [25]% of the gross booking subtotal per confirmed reservation (the "Cohost Fee"). The Cohost Fee is calculated before platform fees and before cleaning fees are deducted. **Minimum Monthly Fee:** In any month where the Cohost Fee is below \$[250], Owner shall pay a minimum monthly fee of \$[250].

6. **PAYMENT TERMS.** Cohost shall remit Owner's net payout by the [5th] day of each month, covering all revenue received and expenses paid in the prior calendar month.

7. **EXPENSES.** Cleaning fees, supply restocking, vendor payments, and platform fees are pass-through expenses deducted from gross revenue before Owner payout. Cohost absorbs no expenses from the Cohost Fee unless explicitly agreed in writing.

8. **TAXES.** Owner is solely responsible for all federal, state, and local income taxes on rental income. Owner is responsible for collecting and remitting any required lodging or transient occupancy taxes. Cohost shall provide a monthly statement sufficient for Owner's tax filing.

9. **BOOKING AUTHORITY.** Cohost is authorized to accept or decline guest bookings at Cohost's discretion, consistent with Owner's house rules. Cohost shall maintain a written guest screening process and apply it to every booking.

10. **HOUSE RULES.** Owner shall provide Cohost with House Rules for the Property within 7 days of signing this Agreement. Owner shall not modify House Rules without 7 days' written notice to Cohost.

11. **MAINTENANCE.** Cohost shall coordinate routine maintenance. Repairs exceeding \$[X] require Owner's prior written approval, except in the case of emergency affecting guest safety or property integrity, in which case Cohost may act without prior approval and shall notify Owner within 24 hours.

12. **CLEANING.** Cohost shall engage cleaning services for turnover between guests. Cleaning fees charged to guests are pass-through and are not part of the Cohost Fee calculation.

13. **OWNER ACCESS.** Owner may use the Property for personal use up to [X] nights per calendar year, subject to availability. Owner shall provide Cohost with at least [14] days' written notice for personal-use reservations, except in the case of emergency.

14. **REPRESENTATIONS.** Owner represents that Owner has full legal authority to enter into this Agreement and to rent the Property on a short-term basis. Owner represents that the Property complies with all applicable zoning, permit, and licensing requirements.

15. **INDEMNIFICATION.** Owner shall indemnify and hold Cohost harmless from any claims, damages, or liabilities arising from (a) the condition of the Property, (b) Owner's failure to maintain insurance or licenses, or (c) any act or omission of Owner.

16. **INSURANCE.** Owner shall maintain homeowner's insurance and short-term rental liability coverage of at least \$[1,000,000] throughout the term of this Agreement. Owner shall provide Cohost with a certificate of insurance upon request.

17. **TERMINATION.** Either party may terminate this Agreement for cause with 30 days' written notice. Cause includes (a) breach of any material term not cured within 14 days of written notice, (b) bankruptcy or insolvency of either party, or (c) Owner's loss of legal authority to rent the Property. Either party may terminate without cause with [60] days' written notice.

18. **ENTIRE AGREEMENT.** This Agreement constitutes the entire agreement between the parties and supersedes all prior agreements. Amendments must be in writing and signed by both parties.

MODULE 05

The 15-Point Listing Audit

Every point scored 0-4 with concrete examples.

"We audit your listing. Our team reviews your pricing, photos, and setup — and hands you a revenue projection."

— hostflow.me

The audit is the deliverable. The audit is what the client pays you for in the free strategy call. Every word of the audit below mirrors what Hostflow.me calls "the audit" on its homepage.

5.1 What the audit is

The 15-point audit is a structured walkthrough of a listing, scoring it on the 15 dimensions that drive bookings. Scoring: 0 = critical fix (do this week). 2 = needs work. 4 = best-in-market.

Sample audit scores across all 15 dimensions on a real listing.

5.2 The 15 points with scoring criteria

1. Hero photos

What to look for: Photos 1-5 are the booking decision.

Scoring: Score 4 = 20+ photos, professional, golden hour, varied angles. Score 2 = 10-15 photos, mixed quality. Score 0 = 5 or fewer, mostly phone snapshots.

2. Photo count

What to look for: Total photo volume.

Scoring: Score 4 = 30+. Score 2 = 12-25. Score 0 = under 10.

3. Title

What to look for: 60-character title with the unique selling point.

Scoring: Score 4 = specific (location + feature + vibe), no all-caps filler. Score 2 = generic. Score 0 = over 80 chars.

4. Description

What to look for: Listing body that paints a picture.

Scoring: Score 4 = opens with experience, lists amenities scannably, mentions local attractions. Score 2 = one paragraph of property features. Score 0 = under 100 words.

5. Pricing strategy

What to look for: Daily pricing aligned with market.

Scoring: Score 4 = uses dynamic pricing, reviews weekly, has documented comp set. Score 2 = set once at sign-up, never reviewed. Score 0 = guessed.

6. Calendar freshness

What to look for: Calendar updated for next 90 days.

Scoring: Score 4 = 90 days open, mini-min-nights set. Score 2 = 30-60 days open. Score 0 = next 14 days only.

7. Response time

What to look for: Median response to inquiries.

Scoring: Score 4 = under 1 hour. Score 2 = under 12 hours. Score 0 = over 24 hours or 'rarely responds'.

8. Reviews

What to look for: Total count + average + recency.

Scoring: Score 4 = 25+ reviews, 4.9 avg, recent within 30 days. Score 2 = 10-20 reviews, 4.6 avg. Score 0 = under 10 or any 1-3 star.

9. Amenities

What to look for: Listed amenities match the niche.

Scoring: Score 4 = all major amenities highlighted in listing title. Score 2 = amenities listed but not featured. Score 0 = missing obvious amenities.

10. Cleaning SOP

What to look for: Documented turnover process.

Scoring: Score 4 = written checklist, photo verification, 4-hour window. Score 2 = cleaner knows it but no doc. Score 0 = owner cleans themselves or inconsistent.

11. Check-in process

What to look for: Documented, automated.

Scoring: Score 4 = smart lock + automated message + 5pm cutoff. Score 2 = lockbox + manual message. Score 0 = meet-and-greet or unclear.

12. House rules

What to look for: Pinned, scannable, reasonable.

Scoring: Score 4 = 5-8 rules, party-free, no smoking. Score 2 = long list, some unreasonable. Score 0 = no rules or 20+ rules.

13. Local SEO

What to look for: Title and description match local search.

Scoring: Score 4 = neighborhood + city + state + nearby landmarks. Score 2 = city only. Score 0 = generic.

14. Superhost status

What to look for: Active Airbnb Superhost.

Scoring: Score 4 = currently Superhost, 1+ year. Score 2 = previously Superhost, lapsed. Score 0 = never qualified.

15. Repeat guest rate

What to look for: Returning guests.

Scoring: Score 4 = 15%+ repeat bookings. Score 2 = 5-10%. Score 0 = under 5% or no tracking.

5.3 Using the audit to convert

The audit lands 48 hours after the discovery call. Format: PDF, 3 pages, branded with your mark. The cover line is the score: "[Property Name] scored 47/60 — best-in-class on cleaning SOP, biggest gaps in photos and pricing."

The middle of the PDF is the per-point breakdown with concrete recommendations. The end is your proposed engagement model — fee, term, scope.

The audit does the selling, not you. It lets the owner see, in writing, what you would change. The closing question is simple: "Would you like me to start with the top 3 priorities this week?"

Voice: Premium, calm, mentor-talking-to-serious-host. Operator-grade.

MODULE 06

Guest Screening

4-question pre-approval + 4 worked scenarios.

"Get more views, more bookings, and take back your evenings."

— hostflow.me

The promise on the hostflow.me hero is fewer problems and more bookings. Guest screening is the cheapest insurance against the kinds of bookings that cost evenings.

6.1 Why screening matters

The single biggest risk to a short-term rental business is a party. Parties cause property damage, neighbor complaints, and in some jurisdictions license revocation.

6.2 The 4-question pre-approval

Send these 4 questions before accepting a booking:

1. **Who's joining you?** Names + relationship. Adults only, no exceptions.
2. **Purpose of the trip?** Family, work, event, etc.
3. **Anything we should know about your group?** Open question.
4. **Have you read the house rules?** Yes/no. Specifically asks about no-parties, no-smoking.

6.3 The decision tree

If answers all check out:

"Thanks for the info! Looking forward to hosting you. Booking confirmed."

If something feels off:

*"Thanks for reaching out. I want to make sure the property is a good fit. Would a quick 5-minute call work?
[Calendar link]"*

If a hard no:

"Thanks for your interest. Unfortunately the property isn't a fit for [specific reason]. Wishing you well on the trip."

6.4 Four worked scenarios

- **Party risk.** Guest says 'celebrating my 30th, bringing 15 friends.' Decision: decline. Risk too high.
- **Bad review history.** Pull guest profile. 3+ reviews under 3 stars from prior hosts. Decision: call, ask context, decide case by case.
- **Instant book abuse.** Same guest booked 4 weekends in 60 days, all last-minute, all under 2 nights. Decision: decline future bookings politely.
- **Off-season inquiry.** Single adult, midweek in February, vague purpose. Decision: accept. The off-season is where you take risks you wouldn't in peak.

MODULE 07

Dynamic Pricing

The 4 adjustments + a 30-night worked example.

"Multi-channel distribution. We get to know your property, your goals, and what's holding back your revenue."

— hostflow.me

Pricing is the lever that converts "more views" into "more bookings" and "more revenue" — the three promises on the hostflow.me hero. This module is the mechanics of that lever.

7.1 Your base price

Your base price is the nightly rate when nothing unusual is happening. Set by your comp set, not by your gut. Pull 3-5 comparables within 5 miles.

7.2 The 4 adjustments

- **Day of week.** Friday/Saturday = +15-30%. Weekday = -10-15%.
- **Seasonality.** Holiday weekends, school breaks, local events = +50-200%. Off-season = -10-20%.
- **Lead time.** Last-minute (under 14 days) = -10-30%. Bookings 60+ days out = +5%.
- **Occupancy.** Empty 30 days out = -5-10%. 80%+ booked 30 days out = +5%.

Dynamic pricing in action -- 30 nights, 140 – 278

30 nights of pricing with adjustments applied. \$140-\$278 across the month.

7.3 Worked example — 30-night pricing calendar

Base: \$185/night. 30 nights in May. Mixed market.

Date	Day	Adjustment	Final
May 1	Fri	+25% weekend	\$231
May 2	Sat	+30% peak	\$241
May 3	Sun	+10% soft weekend	\$204
May 4-7	Mon-Thu	-15% weekday	\$157
May 8	Fri	+30% Memorial Day	\$241
May 9	Sat	+50% peak holiday	\$278
May 10	Sun	+20% holiday Sunday	\$222
May 11	Mon	+10% holiday Monday	\$204
May 12-31	Mixed	Rolling daily	\$140-230

Total May: \$6,820. Flat at \$185 = \$5,550. The 4 adjustments = +23% revenue in this example.

MODULE 08

The Monthly Statement

8-block template + a fully worked May statement.

"Live Coaching. Weekly calls with direct feedback from experts actively scaling businesses."

— cohostingacquisition.com

That quote is the cadence. The monthly statement is the rhythm that backs it up — a structured document that lands on the 5th of every month, every month, no exceptions. It is the deliverable that makes owners stay.

8.1 The 8 blocks

Cover line. One-line summary. "Here is the May statement. Net payout: \$3,847. Up 18% from April."

Revenue breakdown. Gross bookings, platform fees, net to host before expenses.

Expenses pass-through. Cleaning, supplies, maintenance, vendor. Each line itemized.

Cohost fee. Your fee under the contract. Visible. Never buried.

Net payout. The number the owner cares about. Bold, large, at the bottom.

Vs last month. Revenue, occupancy, ADR. Side by side.

Coming up. What owner should know about next month.

Open actions. Anything owner needs to do.

8.2 Sample statement — The Blue Cabin, May 2026

Block	Content
Cover	Net payout: \$3,847. Up 18% from April. May included Memorial Day weekend (+35% revenue).
Revenue	Gross bookings: \$6,820 (11 reservations). Airbnb service fee: -\$1,025. Cleaning fees retained: -\$330. Net before e
Expenses	Cleaning (11 turns × \$85): \$935. Restock supplies: \$42. Plumber call: \$185. Total: \$1,162.
Cohost fee	25% of booking subtotal = \$1,705 (per Section 5 of contract).

Net payout	$\$5,465 - \$1,162 - \$1,705 = \$3,847.$
Vs April	Apr: \$5,778 rev / 60% occ / \$192 ADR. May: \$6,820 rev / 75% occ / \$213 ADR. +18% rev.
Coming up	June: no holidays, expect lower occupancy. July 4th booked. STR license renewal due 2026-08-15.
Open actions	Confirm license renewal date. Approve plumber invoice (\$185).

Send by the 5th of the following month. If zero bookings, send anyway — silence until the 8th is the second biggest reason owners leave.

MODULE 09

Owner Outreach

5 email scripts + DM templates + the conversion funnel.

"Consistent Client Pipeline. Our acquisition system shows you exactly how to keep new property owners coming to you."

— cohostingacquisition.com

That quote is the chapter. Pipeline is a system, not a hope. The five scripts below + the funnel that wraps them are the system.

9.1 The conversion funnel

9.2 Channel 1 — Listing-mining cold pitch

Subject: Quick observation about [Property Name]

Hi [owner name],

I am [your name], a cohost in [city]. I came across your listing at [address] while reviewing the [cabin / urban / etc.] market.

I noticed two patterns that often cost owners in your market \$X/year:

(1) [Specific observation — calendar stale, photo count low, etc.]

(2) [Second specific observation]

I am offering a free 15-minute audit — no pitch, no contract, just observations on what is fixable. If interested, reply with a time that works and I will send a calendar link.

[Your name] · [Phone] · [LinkedIn]

9.3 Channel 1 — Follow-up after no reply

Subject: Re: Quick observation about [Property Name]

Hi [owner name],

Following up on the audit offer from last week. If you weren't interested or the timing is off, no problem — happy to take you off the list.

If you are still curious but didn't get to it, I can do the audit async — just send me your listing URL and I will email you the observations in writing.

Reply 'send it' if that works.

[Your name]

9.4 Channel 2 — Real-estate agent referral

Subject: *Co-hosting one-pager for your investor clients*

Hi [agent name],

Nice to meet you at [event / through mutual contact]. I run a small cohosting practice in [city] — I take over the day-to-day for STR owners who can't or don't want to self-manage.

If you ever run into an investor client whose Airbnb is performing poorly, I would love to be the person you hand a one-pager to.

No obligation on your end. If it works out, I send a small referral fee per signed owner.

Thanks for the intro, regardless.

[Your name]

9.5 Channel 3 — Furnished Finder DM

Hi [owner name] — saw your FF profile for [city/region]. I help remote owners in [region] with the same setup — 30+ night average stays, mid-term market, owner has never visited the property.

Quick question: is the calendar stale because you ran out of bandwidth, or because you are between setups?

[Your name]

9.6 Channel 4 — Reddit value-add comment

If someone posts 'How do I start cohosting without owning property?', reply with:

"I am a cohost in [city]. Here is what worked for me in the first 90 days: list your niche, build your comp set, write a one-page positioning brief, and send 30 cold pitches using a specific observation about each listing. I have a free PDF of 21 AI prompts for STR hosts if you want — DM me."

Three Reddit rules: (1) reply only when useful, not every thread; (2) never link to your product in reply — 'DM me' only; (3) one thread per subreddit per week.

9.7 The audit-delivery email

Subject: *[Property Name] audit — 15 points, observations attached*

Hi [owner name],

Thanks for the call on [date]. Attached is the audit — 15-point review with specific observations and recommendations.

Top 3 things I would prioritize in week 1:

(1) [Highest-leverage fix]

(2) [Second-priority fix]

(3) [Third-priority fix]

Top 3 things for month 1: [list]. My proposed engagement: [summary]. Fee: [number]. Term: [length].

MODULE 10

Scaling 1 to 5

Hour-per-property targets + the inflection table.

"We went from living in a pick-up camper to booking a one-way ticket to the tropics. I know firsthand what it takes to go from raw land to a finished cabin. And, I also know what works and what doesn't to build a successful short term rental business."

— ohshehosts.com

That quote from ohshehosts.com is the founder-narrator voice. The lesson for scaling: there is a real path from solo operator to multi-property practice, and the inflection points along that path are documented.

Hours per property by portfolio size. With systems vs without.

10.1 Properties 1-3: Do the work yourself

You are doing every message, every pricing update, every cleaning coordination yourself. This is the only way to learn what good looks like. Build your SOPs in real time, document them in Notion or a shared doc.

Target time per property: 18-25 hours/week. Don't take a 4th property until your time per property is consistently below 12 hours/week.

10.2 Properties 4-9: Systematize

Hire your first cleaner. Build a cleaning checklist and turnover workflow. Hire your first part-time helper or VA for guest communications. Document everything they need to read.

Target time per property with one helper: 8-12 hours/week.

10.3 Properties 10-15: Hire and delegate

Hire a second cleaner or cleaning team. Hire your first full-time operations coordinator. Train them on every SOP you have written. Their job is to run the SOPs, not to make decisions — decisions stay with you.

Target time per property with coordinator + managing cohost: 3-5 hours/week.

10.4 Properties 15+: Two paths

Become a cohosting agency (a real entity with a brand, multiple operators, a sales pipeline, 30-100 properties). Or stay as a high-touch solo operator with 12-15 properties at premium pricing. Both are real businesses.

10.5 The mistake that kills most cohosting practices

Scaling too fast. Taking properties 5 and 6 before you have actually systematized properties 3 and 4. Service quality collapses. Renewal rates drop. Referrals dry up. You burn out within 12-18 months.

The discipline is: only take a new property when your existing portfolio is running at the time target for that scale. If you are not hitting the target, you are not ready to scale. Fix the systems first.

APPENDIX A — Cleaning checklist

Attach this as Exhibit A to your contract. Customize for your property's specifics.

KITCHEN

Counters wiped. Sink polished. Dishwasher empty. Stove wiped. Microwave wiped inside. Fridge wiped inside. Floors mopped. Towels restocked. Paper towels + dish soap stocked. Coffee filters + coffee stocked.

BATHROOMS

Toilets scrubbed + polished. Sinks scrubbed. Mirrors polished. Showers scrubbed. Floors mopped. Towels replaced. Toilet paper restocked (min 4 rolls per bathroom).

BEDROOMS

Beds made with fresh linens. Nightstands wiped. Dressers wiped. Floors vacuumed. Closets checked.

LIVING AREAS

Surfaces dusted. Floors vacuumed + mopped. Cushions fluffed. TV remotes wiped. Windows checked.

EXTERIOR

Entryway swept. Porch/deck clear. Trash bins put away.

RESTOCKING

Kitchen basics. Coffee + filters. Tea. Dish soap + sponge. Hand soap. Paper towels. Toilet paper. Trash bags.

QUALITY CHECK

Photo of every room after cleaning, sent to cohost within 1 hour. If any item fails, cleaner returns to fix.

APPENDIX B — Agent-facing one-pager

Forward this to any real estate agent who works with STR investors.

What I do: take over the day-to-day for short-term-rental owners. Services include listing management, guest communications, dynamic pricing, cleaning coordination, maintenance triage, monthly statements.

What I charge: 25% of booking subtotal, no setup fees, no upfront. Owner keeps 75% of revenue.

Who I work with: owners who can't keep up with the day-to-day. Out-of-state owners. Scaling from 1 to 3 properties.

Why owners hire me: 24-hour SLA on every message. Higher occupancy (+15-30% over 90 days). Fewer bad reviews. Time back.

How to refer: Send me an investor client whose Airbnb is underperforming. I do a free 15-minute audit. If they hire, you get a referral fee at the 90-day mark.

CREATOR REFERENCE Snow Studio AgenticOS · Internal brand creator (master plan)
